

A graph with 7 nodes and 8 edges. The nodes are colored: blue, white, white, white, orange, orange, and green (dashed). The edges connect the nodes in a specific structure.

повеќе тројки

The diagram illustrates a graph structure. A primary path is highlighted with dark blue lines, connecting five nodes: a light blue node on the left, a white node, a white node, an orange node, and a green node on the right. The green node is surrounded by a dashed green circle. Below this path, there are two light gray nodes connected to each other and to the white nodes above them, forming a triangular structure. The overall layout suggests a network or a sequence of events.
